

Associate Director/Director, Electronic Trading & Execution

About us

Invast Global is a specialist multi-asset prime broker based in Sydney and Tokyo. The company specialises in providing innovative prime services to hedge funds, asset managers, proprietary trading firms, professional traders and other brokerages and banks.

As a world-leading boutique investment bank, we are constantly in search of hungry people to join the team and challenge the status quo. We want dreamers and doers who are ready to hit the ground running.

Why join us

- **Remuneration** - Invast Global offers a highly competitive base salary along with Short Term Incentive Schemes - which includes regular cash bonuses.
- **Flexibility** - We want to hire the best talent in the industry. To attract the best, we have embraced a flexible work culture. This includes WFH opportunities and generous leave packages.
- **Career development** - We don't just want to hire the best talent, we want to train them to be even better. Career development is a priority to you – so it's a priority for us.
- **Unique workplace** - Our Sydney office is nearby public transport & secure parking. The building boasts views of Sydney Harbour and a unique balcony break out area.
- **Support** – We are a small team with a flat structure. You will have direct access to management and C-level.
- **Culture** – We are a young and energetic team with more than half of all of our employees in their 20's.

About the role

We have an incredible opportunity for a new team member to join our Electronic Trading and Execution (eTX) team, providing an outstanding and consistent level of service to our key clients.

This is a diverse role that requires someone who is energetic, meticulous, and passionate about providing an excellent client experience.

Key duties and responsibilities

- Manage trading operations including configuring platform settings and trading into live markets (FX&Metals/Futures/Equities);
- Monitoring of pricing, execution and risk on both the firm and client side;

- Assist in technical onboarding of clients and provide API/connectivity support;
- Assist in data analysis, liquidity management and handling of client trade flow pertaining to yield optimisation and proprietary pricing initiatives;
- Engage regularly and maintain relationships with liquidity providers to maintain quality of pricing and execution;
- Perform analysis related to client;
- Frontline client communication, technical problem solving and trade investigations;
- Drive product development, enhancement and continuous process improvement;
- Contribute to squad meetings and deliver ad hoc projects;
- Represent the Company at various community activities as required;
- Ensure all trading activity is in accordance with the relevant regulatory obligations, company policies and procedures.

About You

- Tertiary qualification in a relevant discipline is essential: Engineering, Computer Science, Mathematics, Finance;
- 2+ years of dealing experience is desired;
- Experience in quantitative market making is desired;
- Experience in Financial Services is essential, preferably in the digital brokerage sector;
- Experience in B2B and B2C channels is preferred;
- Proficiency in Bloomberg;
- Strong knowledge and interest in FX&Metals/Futures/Equities markets;
- High level of competency in Excel, MySQL and Python is preferred;
- Experience with OneZero, FlexTrade, Iress and/or other trading infrastructure;
- Experience with Salesforce, Jira and Confluence;
- Familiar with FIX protocol.

Our Values

- **Innovation** – Consistently strives to create new, more efficient ways of completing standard procedures.
- **Passion** – Approaches tasks with enthusiasm and is genuinely invested in the role and the company's goals.
- **Teamwork** – Ability to work independently and as part of a team under a deadline.
- **Fun** – Contributes to company culture and endeavours to make work enjoyable for all employees.
- **Excellence** – Strives for excellence in all aspects of work.

How to apply

To apply for this role, apply now via SEEK or recruitment@invast.com.au. Include your resume and cover letter outlining why you're perfect for this role.
